

Joshua Erusiafe

Computer Science Graduate • Web Developer • Founder, DANTEX Official

07062747558 • joshuaerusiafe@gmail.com • linkedin.com/in/joshua-erusiafe • Abuja, Nigeria

PROFESSIONAL SUMMARY

Computer Science graduate and digital builder with experience in web development, Python, IT support, networking, and AI tools. Combines technical expertise with creative skills in graphic design and video editing, turning ideas into polished digital solutions. Founder of DANTEX Official, a gaming, branding and tech services company. Open to opportunities to contribute, grow, and build as a developer and IT professional.

PROFESSIONAL EXPERIENCE

Founder & Director

DANTEX Official — Gaming, Branding & Tech Services • Self-Employed • 2020 – Present

- Founded and manage a digital company specializing in gaming tech, branding services, web development, and creative design.
- Lead development of web applications using Next.js, TypeScript, Tailwind CSS, REST APIs, and AI integrations.
- Integrate AI tools (Mistral AI, LLMs) and prompt engineering workflows to power intelligent features and optimize processes.
- Deliver professional branding, graphic design, flyer design, and video content creation services to clients.
- Manage end-to-end client projects from concept and design through development, delivery, and support.

Information Technology Support Specialist

NNPC / Nigerian Gas Marketing Limited — ICT & Business Services • Abuja, Nigeria • Apr 2024 – Sep 2024

- Provided comprehensive IT infrastructure support including network troubleshooting, connectivity diagnostics, and software issue resolution.
- Managed server operations, network switches, access points, and full network infrastructure across multiple office locations.
- Configured and deployed Cisco VPN AnyConnect, Cisco IP phones, and enterprise network devices.
- Performed Active Directory domain management — adding new staff computers to domain and managing network access control.
- Provided live technical support during corporate conferences including WOWBII interactive board setup and AV configuration.
- Maintained and replaced IT equipment including servers, access points, signal tuners, and 4TB CCTV surveillance hard drives.
- Managed IT supply inventory, printer setup, and diagnosed internet connectivity issues through hardware and software solutions.
